

**BEST PRACTICE**  
**OF**  
**BINANDI CHANDRA MEDHI COLLEGE, RAMDIACOLLEGE**

## **Best Practice – I**

**Promotion of Reading Habit Among the Students as well as the Community Member**

### **Objectives of the best Practice**

- **To increase reading habit of the students as well as the community members**
- **Encourage the students as well as the community members to explore library**
- **To increase the level of knowledge of the students**
- **To encourage the students to use their rest time properly.**

### **The Context**

To promote the reading habits of the students, the college organize library orientation programme with new students every year at the beginning of the session. Book fare related to this programmes also organized in our college premises every year to familiarize the books with the students. Meeting with the senior citizens also conducted and they are requested to use the library as per their time Permit. The members of the senior citizen used the library frequently and extend their valuable suggestions for development of the library.

### **The Practice**

For promoting library habit, various programmes are conducted by the teachers and the librarian to provide much needed information about the content of the library, procedure to use of library, benefits of using library etc. The teachers and the librarians also conducted various programmes like seminar, presentation, group discussion, orientation etc. for the students knowledge.

### **Evidence of Success**

By this programme, students are motivated and they regularly used the library during their off hours. Students have borrowed books, magazines, and other reading materials as per their requirements. The Programme helps the students by encouraging them to develop their good reading and study habit. It orients them towards research. The programme also help the senior citizens to use their rest time in proper way. They get help by using various religious

books. Some of them also write various books where references are necessary. By using library they get proper references.

### **Problems Encountered**

- Lack of available funds to develop the library properly.
- Shortage of space to carry out the programme properly.
- Shortage of faculties to give helping hand to the students and teachers in all time
- Shortage of books, specially course related which also is a major problem.

### **Resource Required**

- The helping hand is required to co-operate the college to provide necessary fund for this great practice.
- Government should increase the number of faculties in the college so that more number of facilities could be involved in monitoring this programme.
- A separate building should have to constructed where separate rooms can be provided for students, teachers and the senior citizens.

### **Notes**

- We are planning to provide the library facilities to the school children and a special programme is conducted namely mentoring school in all level.
- Such type of initiative will be successful if we are able to increase the number of books in school level. This need help from government as well as general well-wisher of the college.

# . Best Practice - II

## Extension Services in the Adopted Villages

### Objectives of the best Practice

- To encourage students to additional responsibilities of social life
- To highlight the basic problems of the society among the students
- To forward the major problems to the local administration.
- To provide support as per the capacity of the college to the needy people.
- To provide To show them the knowledge and personalities who are contributing to society by their special works in specific areas of society.

### The Context

Extension services conducted by our fraternity to prevent child marriage, increase literacy rate among the girl child, stop child labour, prevention of superstition and various awareness programmes are conducted in the adopted as well as feeder villages of the college.

### The Practice

The college has been relentlessly working on the development of the adopted village as well as the nearby villages by organizing and arranging various programmes like awareness programme for increasing literacy rate, stop child marriage, women empowerment, stop child labour etc. The programmes are conducted by the departments, cells, NSS and NCC. The teaching faculties also take classes in the schools of those areas.

### Evidence of Success

To increasing literacy rate, stop child marriage, to empower women, stop child labour etc. is a long term process but by awaring the illiterate guardians of the adopted village as well as other villages we can say that these problems are gradually decreasing. The women literacy rate of the village has increase and it will prove in the report of Population Census. As per the information gathered from the village headman, the rate of child marriage has totally stop. The women of the adopted villages started various types of activities at their home like weaving, poultry farming, agricultural activities etc. the rate of child labour also decreasing as per the information.

### Problems Encountered

- It is very difficult task to mobilize the village women because almost all of them like to stay at home with their kitchen and homely environment.
- The illiterate parents of the adopted village and the nearby villages, are very aggressive and like to keep the custom and tradition of their forefathers.

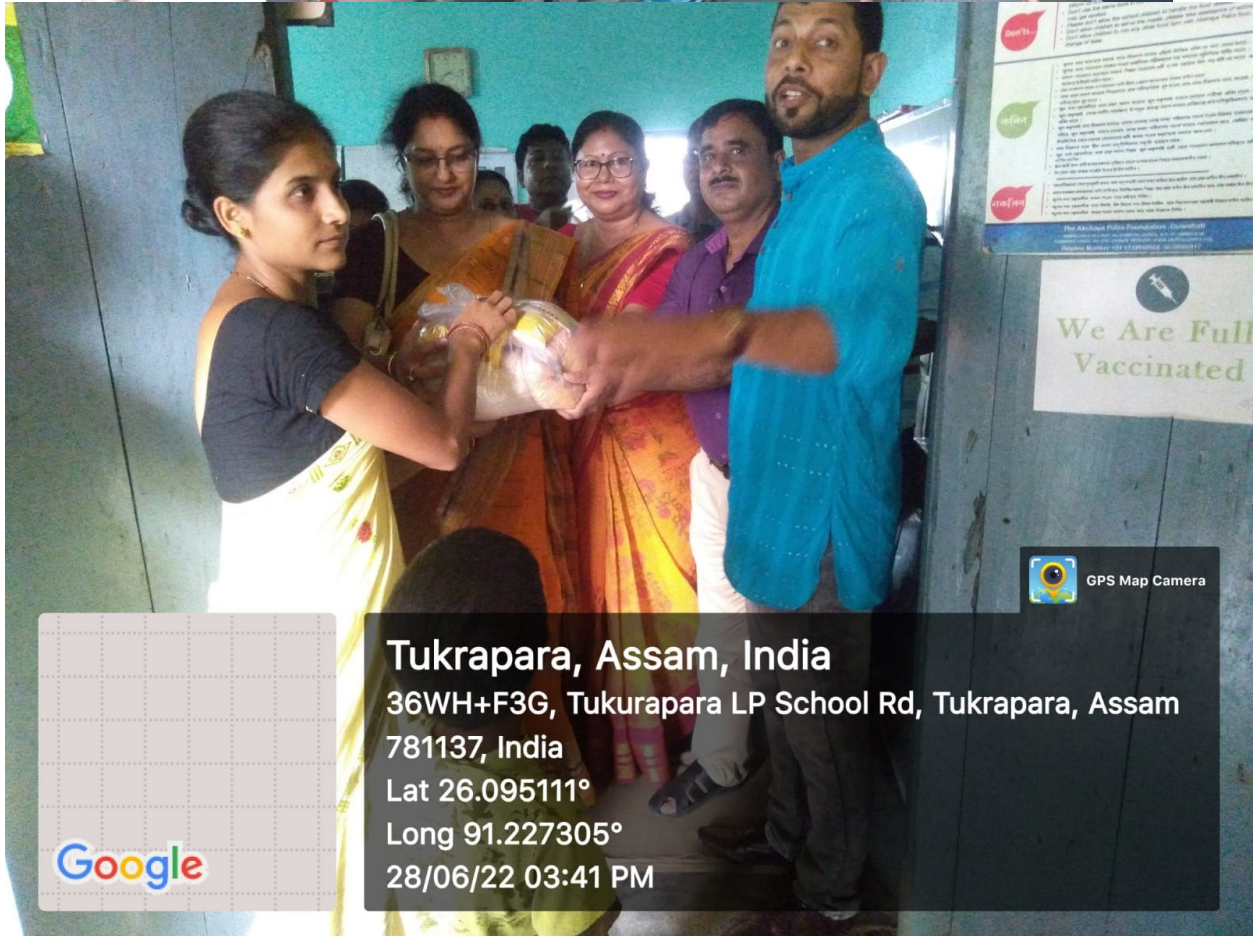

- Poor economic condition of the villagers some time bound them to give child as child labour.
- The college has no sufficient funds to help the villagers in good quantity.
- Shortage of time to plan and carry out these types of activity.

### Resource required

- Government and other social organization should also support us to improve the condition of the villagers.
- It is very essential to provide loan with low interest rate to the villagers
- To empower the women government should provide necessary training to the villagers.
- Proper medical facilities should also be provided to the villagers.
